

# Wealth Education

Wealth is Shakti (Energy);  
Therefore it should be handled  
responsibly.

Wealth is a medium of exchange;  
however it is unwise to exchange  
character for wealth.

Wealth gives one a status in the society.  
But is it a true status or just an imagination?

One can enjoy life with wealth;  
Provided the wealth does not start eating the health.

Wealth tastes delicious if it is earned by the sweat of  
the brow; and it makes the spirit inspite if acquired by  
'get-rich-quick' phenomenon.

Wealth, like water remains pure when kept flowing and  
becomes polluted and filthy if allowed to collect.
